

ACM 17/400 TA SL

Condenser microphone with a table base, switch and integrated converter

ACM 17/400 TA SL is a premium quality gooseneck condenser microphone with a cardioid directivity pattern. It is mounted on a stable base and is equipped with a switch. ACM 17/400 TA SL offers clear, rich in detail and assertive speech play back and it has a high feedback security. It transfers high sound intensity without distortion and ambient noise is strongly minimized. Because of its miniature capsule it appears elegant and unobtrusive. The microphone is available in different length.

Phantom powering	24-48 Volt
Frequency response	60-18,000 Hz
Directivity pattern	cardioid
Deviation of nominal curve	± 1 dB
Sensitivity	15 mV/pa
Electrical impedance	200 Ohm
Rear damping	20 dB
Connection	XLR
Surface	nickel plated or black anodized
Length	440 mm
Weight	550 g
Special colours	NEXTEL grey or white
Brand	AVE
