Slender and exclusive passive sound columns

Description:

Sound columns in very slender and elegant design with extremely high sound pressures. Equipped with newly developed high-quality 2" – full-range chassis with a nominal power handling of 15 watts, these sound columns are ideally suited for use in difficult rooms. The 100-volts transformer allows adjustment for full, half and quarter power. The sound columns consist of a stable resonance-free aluminum case in modern timeless design, the decor front is a small-hole metal cover. The standard colour is RAL 9010 powder-coated, Special colours are available at an extra charge.
